

Elite PROformance Centre Facility Flow Plan

Facility Notes:

Volunteer referees and scorekeepers should be aware of how their movements through the facility will differ from those of the rest of their team. This includes potentially needing to arrive earlier than the rest of the team or remain in the facility for another match following the conclusion of their team's last match.

Games may proceed as soon as the teams and volunteers are in place and the horn will announce the end of the game. The time required for changeovers will be taken out of the time for the subsequent game. For example, when Game 1 ends the teams will change positions according to the following flow plan and Game 2 may proceed as soon as possible once the players and volunteers for Game 2 are in place and the players from Game 1 have left the field. The flow plan below has been structured such that the team leaving the field should do so by walking around the outside of the field such that these individuals are not crossing the field and delaying the start of the next game.

Benches & Waiting Areas:

Bench #1: East side of field (left when looking from the front door)

Bench #2: West side of field (right when looking from the front door)

Waiting Area #1: North side of field by changerooms

Waiting Area #2: Upstairs viewing area
